I really enjoy this game. I'm not sure why so many reviews are negative, but I find it to be a modern day alternative to simfarm, which I used to love. Highly recommend if you liked that game or enjoy more of the management side of farming.. Tile animation when you match them is making me nervous, you just can not concentrate on your strategy. very disturbing. could not find timer - big minus.. Short but fun. I like how you can do a new game plus with your upgraded stats.. Excellent game in the spirit of old school, but in modern execution. Twist-turn, shoot in all directions, destroy obstacles, destroy enemy tanks.

Improve your tank, destroy the bosses ...

Visually, the game looks like you're playing on a grandma's TV, but it seems like you can turn it off, but I liked it.

In general, the World of Tanks sucks without getting on his knees, that's such a cool game. mask r good

kunai is good

Kriss is a miniV2ndary MG42

pistol crossbow is not bad but not good so its okay

WA2000 outclassed by the AR15 chambered in .308 i would say

poison is eh i rather them die quicker

i wanted a kusarigama, a melee weapon that u throw at cops and pull them 2 you with slow swing\throw speed and bad at close range i think that wouldve been nice.

a grapple hook wouldve also been nice for ur deployable. This isn't a "game" as much as it is a money making device for the developers. It does not attempt to be fun... ever. It is horrifyingly repetitive. It actively screws you over repeatedly. You will feel foolish every time you boot it up. They could've taken their interesting Asian mythological/historical world and crafted a good story-based HOG from it and sold it for \$10 apiece and people would've bought it. Instead it's this "free" game that desperately tries to trick you out of your money rather than earn it.

EDIT: Apparently, this is no longer ftp but now costs \$10. These devs have absolutely no shame. DISGRACEFUL!. who the f*** dies after playing a game for 3 minutes?. pretty nice units, certainly for the money. It's incredibly average. Some of the puzzles are a bit frustrating, and it's about as scary as a dead fly.

It's hard to not recommend this game since it's free, but here I am. Play it if it interests you.. A worthy sequel to the first volume. Do keep tabs on your island, though. If you forget for too long... well, that pile of bones mocketh thee...

For a 3.4mb game it's really fun, better buy at a sale, i'd say. Anyway, good luck and lot of patience!. This game does not adhere to the rules of chess.

I moved a pawn forward, the AI moved it's bishop to in front of my pawn.

I could not move my pawn forward one space to take the bishop.

. tl:dr DO NOT PUT ANY MONEY INTO THIS GAME AND JUST PLAY IT FOR FREE, FALSE ADVERTISING ON CARDS, SIDE STEPPING STEAM TAXES BY LINKING TO A PERSONAL ARTIST ACCOUNT PATREON SUBSCRIPTION

DO NOT BUY DLC FOR THIS GAME

DO NOT BUY CARDS FOR THIS GAME UNTIL BOOSTERS ARE FREED FROM THIS HOSTAGE SITUATION

The Steam DLC doesn't count towards booster unlock.

In game only to unlock, no in game shop, only in game purchase option goes to a patreon and all discussions end with "just buy off the market" or they'll even say, "gems", but once again, this is ignoring the very glaring problem of not being able to get the booster unlock.

The discussion page even has a sticky post that says cards are coming...half a year ago with a nvt = no text. Clearly, people have booster capability and the devolper is ignoring questions on how others may also obtain it.

Not being able to unlock booster while others obviously have seals the deal, I know a racket when I see one, but just when you thought broken and discontinued items on steam were bad enough, this is clearly misadvertised as having "trading cards" when the low amount and high prices for the cards AND BOOSTERS clearly screams some of somebodies buddies were given the feature so they can sell the cards while others weren't. At a ransom price for cards in general. ...30 cents for one reg card.

Is this a f2p that I can spend 40 dollars with my steam wallet or a hostage situation?

I'm going to look around for someone to make this right, but for all intents and purposes, DO NOT BUY DLC IF YOU'RE LOOKING TO UNLOCK BOOSTER, SOMETHING IS TERRIBLY WRONG HERE AND IT STINKS.

What the actual F

Does Gabe know you're side stepping steam sales and are technically mislabeling your product?. Nitro Rage is an online multiplayer car combat game. There seem to be no bots to play against, making for a super dull singleplayer experience. Sure you can drive around an empty map imagining all the cool things you can do, but there was no one playing the game for me to play a match against. The game looks good and it should for using the engine it is... the map is big... but I think that's where the compliments end.

I differ to the "no trailer, no buy." You can also tell a lot about a game by its menu buttons and HUD. In this case its transparent boxes with text over them. Sure they can output a game that looks great, but can't cobble together a HUD and menu buttons? It leads me to believe they didn't make the game or just imported its assets and maps. I hate to jump to that conclusion, but there's just not a lot to talk about with an online multiplayer only game that didn't have any multiplayer when I played it.

To the developers, if you've made it this far, add some bots please. To anyone looking to buy it, avoid it.. Mind bending puzzle game using clones to solve stages. It's a lot of fun.

The soundtrack is good, optimization is fairly good. The main gripe i have would be the frame drops when pulling up your arms to summon clones(assuming it has to do with rendering the different scenes), luckily it doesnt effect gameplay since it happens prior to the action beginning.

All in all, it's a very unique game that's very fun. I would highly recomended if you enjoy puzzle games!. bought it bcs i dnt know where to spend my money lol. One great add on! Highly detailed! I like how you have to actually start the prop with your mouse and that you can manage you payload and even add a passenger that will talk to you. Highly recommended! You get a few versions of the cub, you get one on skies, one on floats, and one on wheels.. I liked this better than Pillars. Being evil is cool, and there needs to be more of this. I think the criticism of the ending is also unwarranted. I thought it was perfect. My only

problem is we likely won't see more of this world since it didn't sell as well as they hoped, but this is worth picking up if you enjoy isometric crpgs.. This game is written by a confused old pedophile scalie with a tickle fetish. Also includes dabbing

<http://puu.sh/tRgKV/42c354aa6c.png>. I really think this game has great potential but it needs more polish doesn't feel like a complete game. I want more.... Only time will tell....
